

B.U.K. INVESTMENTS LTD.

Our Approach to ESG

Environmental

- Decarbonize our buildings, fleet and waste
- Conserve water and enhance biodiversity
- Pursue climate resilience

Social

- Engage our workforce
- Sustain strong vendor partnerships
- Prioritize health and safety
- Connect with our tenants and communities

Governance

- Uphold ethical practices
- Manage risks
- Implement ESG management and reporting
- Integrate green leases and explore certification

Our Commitment to ESG

B.U.K. Investments Ltd. is committed to integrating sustainability practices into our operations, ensuring that our investments not only deliver long-term value but also contribute to the well-being of the communities and environments in which we operate. By prioritizing energy efficiency, reducing our carbon footprint, and promoting ethical business practices, we are dedicated to setting a high standard for responsible real estate investments.

Demonstrating Our Progress

Taking Action on Climate

We recognize our responsibility to work with our tenants to reduce the emissions produced by our buildings, fleet and waste. For years we have been proactively upgrading tenant spaces to optimize energy efficiency and improve comfort.

This year we launched a program to assess our energy performance and evaluate the mechanical systems in our buildings to identify new opportunities for emissions reduction.

Supporting our Communities

We are committed to giving back to the communities where we live and work. Each holiday season, we support local charities and schools, with employee input guiding our contributions. Our staff volunteered their time this year XXXXXX. We also collaborate with our tenants to support their community engagement efforts, amplifying our collective impact.

Emergency Preparedness

Proactively managing risk is central to ensuring that our spaces remain safe and operational in the event of an emergency. Each year we review and update our policies and processes to manage risks.

This year, we prioritized data security by enhancing our cybersecurity measures, ensuring our information remains protected and secure.

Connect With Us

Sustainability is a joint effort.
